

# don't TRANSPORT your INFECTIOUS ORGANISMS!

Help decrease Healthcare-Associated Infections (HAI's) by utilizing BOWMAN Infection Prevention Stations at critical point of care areas.

Protecting patients, visitors, and staff from microorganisms that spread by contact with contaminated surfaces, staff and common use items can vary in different departments and areas. BOWMAN has a variety of interchangeable solutions to meet each specific need.

Use stations on a counter, wall, or floor stand near:

- Clinics
- Nursing Stations
- Exam Rooms
- Office Environments
- Lab Areas
- Dialysis Centers
- Schools/Classrooms
- Transportation Services
