

3" Core Materials - Wire and Cable Labels

B-437 Topcoated Polyvinylfluoride Material

Color: White, Yellow **Finish: Matte**

White or yellow polyvinylfluoride labels with a matte finish used most frequently in wire and cable identification applications where self-extinguishing features are required. This material utilizes a permanent acrylic adhesive for heavy-duty applications and is available in continuous or die-cut formats. Excellent resistance to water, oil and other common fluids.

B-472 Topcoated Polyimide Wire-wrap Material

Color: White, Yellow **Finish: Matte**

A thin polyimide material which features an advanced adhesive and topcoat design. This material is self-extinguishing, chemical resistant and able to withstand extreme environments including high temperatures. Provides a strong print performance yet remains flexible, conformable and repositionable for wire wrapping.

Performance Attributes:
