finish codes

Finish code applies to exposed portions of lock and is indicated by part number suffix, i.e.: C8053-3 Bright Brass finish.

2C – Zinc Plated	4G – Antique Brass	26 – Bright Chrome
3 – Bright Brass	14A – Bright Nickel	26D – Dull Chrome
4 – Satin Brass	19 – Black	(brushed)

key codes

Key codes stamping may appear with or without zeros preceding other numbers, i.e.: C001A and C1A are the same key code.

STOCK LOCKS®

Through your CompX National distributor
— a program to meet your lock requirements.

CompX National manufactures a wide variety of locks for residential, commercial and industrial use. We've been solving security problems since the need for metal cabinet locks brought about the founding of our company in 1903.

The locks shown in this catalog are particularly well-suited to serve the replacement market, as well as component manufacturers.

Working through your CompX National distributor, we offer a program that is committed to serving your needs.

A complete selection of locks

- Door and drawer locks for virtually every application, every security requirement
- Wide variety of mail box locks
- Locking devices of every description for use in schools, institutional and commercial buildings
- Key blanks and keying kits to complement each of our locks

Packaged for your convenience

- All hardware is individually packed in see-thru poly-bags for product protection and easy inspection
- Poly-bags of like hardware are grouped in popular quantities and placed in handy cases
- Case designed for convenience in storage and ease in handling
