

VHR 70R ES Fresh Air Appliance

Top duct connection HRV, 70 cfm, ENERGY STAR®, recirc defrost

Item #: 463265

The VHR 70R ES, Fantech's most compact, ENERGY STAR® qualified, full-featured HRV uses recirculation defrost for improved efficiency.

- Airflow up to 70 cfm @ 0.4" w.g.
- Top port design fits to fit into tight spaces
- Three speed ventilation control
- Equipped with recirculation defrost
- Integrated balancing damper and balancing port
- East access service door
- Serves 1–3 bedroom homes
- Compatible with Fantech's low-voltage controls

This appliance works continuously to supply fresh air into a home and exhaust an equal amount of stale air from a home. This appliance recovers energy from the extract air and uses it to temper the incoming fresh air, optimizing the energy required to pre-cool or pre-heat the newly introduced air.

Equipped with automatic defrost mechanisms to run in even the coldest climates.

In the Box

This appliance comes with a 70 cfm HRV, a wall bracket, and a drain hose kit.
